## Hard water is something we are all used to in the south.

Although most of us have got used to putting up with it, many do not realise that you can do something about it. It furs up our heating systems, causing breakdowns, makes it more expensive to heat our homes and damages our appliances.

The other problem with hard water is the constant cleaning of showerheads, shower screens, stainless steel sinks- the whole house can suffer where water is concerned. Hard water aggravates skin problems such as eczema and psoriasis.

With a water softener no hard water will get into the house, which means you will do less cleaning, stop buying limescale-related products, cut washing powder use by up to 75% and have less chance of large bills for potential future problems with your heating system and appliance breakdowns. If you were to purchase an ordinary softener you would have quite a large machine, which requires you to set clocks and lug around a 25kg bag of salt. The TwinTec S2 is different. It is small, requires no electricity and uses block salt (like two house bricks) instead of heavy bags.

Harvey Softeners has been manufacturing softeners in this area for more than 25 years and use to trade under the name (Kinetic Ltd). Kevin Goody (UK Water Softeners) is one of Harveys top TwinTec dealers and was voted number two in the country last year. Why is Kevin so successful? He puts it down to extensive marketing, having a great plumber with over 21 years of experience installing water softeners, good customer satisfaction and recommendations. Kevin has installed 2500 water softeners in homes in this area over the last twelve years and arranges everything from initial survey to installation.

If you have an old water softener trade it in for something smaller and more efficient by calling Kevin Goody on: 01276 27924 without obligation. Email: [kevingoody@uk-water-softeners.co.uk](mailto:kevingoody@uk-water-softeners.co.uk) or visit: [www.uk-water-softeners.co.uk](http://www.uk-water-softeners.co.uk) Kevin Goody also welcomes trade enquiries
