# Have some great fun while saving a fortune

The new Suzuki Bandit 1250 GT, with sat-nav as a standard accessory.

THIS week's focus at Haslemere Motorcycles is on try-before-you buy demo machines. There are a dozen to experience, so there is a good chance you will find a bike to your taste.

There are up to 150 motorcycles to choose from, including many machines on 0% interest or cash back, including selected Yamahas.

The company also has plenty of 100mpg motorcycles and scooters and the new Suzuki 1250 Bandit with sat-nav is also at Haslemere Motorcycles. With a nearly unbeatable

price-performance ratio, the old Bandit 1200 had power and torque to spare and it was no surprise it was such a hit.

It will be interesting to see if the successor, a 1250 Bandit with new liquid-cooled four-cylinder engine, can win more fans than the old favourite.

The replacement came out last year to a glowing reception. This year, the new 1250 GT has become even more of a contender.

It is, of course, liquid-cooled with a new four-cylinder motor. It now has a full fairing, a three-box pannier system

and a quality sat nav as standard - saving more than £500 compared with buying the bits and converting yourself.

As a super tourer with a bit of a devil about it, the 1250 Bandit GT is hard to beat. It is a bike that is good at most things, including having fun with a great practical side. And it has as much 'boot space' as a small car.

The Bandit 1250's big, all-new motor pumps out almost 20% more torque than the old engine, with the liquid-cooling more efficient than the previous oil-cooling.

Handling and brakes are updated but the Bandit street cred is still there, ensuring it remains a 'real motorcycle'.

To experience a cracking sports tourer with all the kit, visit Haslemere Motorcycles for a chat and a demo ride. And see if you can work out how Suzuki has done it at the price.

Call 01428 641305 and ask for Mike or Mark or sneak down and take a peek - there is one in the window right now.

Click on [www.haslemere-motorcycles.co.uk](http://www.haslemere-motorcycles.co.uk) to find out more about the company and the bikes it has available.

The Moto Select showroom has plenty to grab your interest.

## Get stunned by a Naked experience

The eagerly-awaited, all-new Super Naked CB1000R was launched by Moto Select at Farnham on July 4.

The bike has received great write-ups in the motorcycling press, along with a lot of customer interest.

Phone now to book a demo ride on 01252 891800.

Other new models released recently are the 110 Lead, Honda's new entry level scooter.

It has an electronic fuel injection four-stroke motor and combined brakes and offers sophisticated performance at a great price of £1,620 on the road.

With the Lead as an example - delivering 100-plus mpg, 50-plus mph, and £15 road fund licence - there's never been a better time to consider a scooter or 125cc motorcycle to reduce your family's travel costs, reduce emissions, beat congestion and have more fun in getting around town or to work.

If you are looking for something

more substantial but still offering a cost effective form of commuting with the capability to deliver full-on motorcycling pleasure, then there are the CBF600 and XL700 to consider. They are both new for 2008, offering great all-round capability.

Honda is running a wide range of 0% finance promotions until the end of September.

So why not visit the Moto Select showroom and check out the great deals available on selected scooters, 125cc motorcycles, Naked motorcycles and the stunning, class-leading CBR600RR?

For the serious commuter or sports tourist, there are also fantastic free luggage deals on the 2008 NT700 Deauville and the VFR800i.

The team at Moto Select look forward to seeing you in the showroom.
