## Amazing range of windows and doors

THE range of products available in PVC and PVCu from the Fascia Place is really quite amazing.

Most people believe windows and doors are only available in white, but with modern manufacturing processes there are a multitude of colours that make preparation and repainting a thing of the past.

The company can also supply fencing, cladding, verandas and balconies with laminate flooring.

Welcome to the neat, clean world of Swish PVC boards where dirt, grime and rot are banished.

Your home is under constant attack from the elements and there is nowhere more difficult to get at with a paint brush than the boarding around your roof.

Swish cellular PVC Roofline boards never need painting and never rot, maintaining their good looks for years.

The Fascia Place offers the lat-

est in security combined with style. Sekura is a whole new generation of windows and doors.
