## Quick and easy way to revamp your kitchen

MOST fitted kitchens, even if looking tired, have a good basic construction.

However, the doors, drawer fronts and sometimes the worktops can make a kitchen look old and outdated.

In 1986, Re-Nu pioneered the idea of renovating kitchens by making and fitting completely new doors, drawer fronts and worktops.

As the most experienced in this method in the industry, Re-Nu has enabled countless customers to enjoy a modern stylish kitchen without the expense and upheaval of having existing units ripped out and replaced.

It's as simple as this. Re-Nu surveys your existing kitchen and helps you select new doors, worktops etc from its extensive range and gives you a fixed price quotation with no hidden extras.

Re-Nu's own fitters, rather than sub-contractors, carry out the installation, and you will be pleasantly surprised at how quickly the work is carried out and how little mess and disruption it causes.

Most of its refurbishments take just a day or two to complete.

Choosing Re-Nu makes a great deal of sense. You save money; it's quick and efficient and your refurbished kitchen looks like a new one – as you can see from these before and after photos.

For more information and a survey of your kitchen, call Re-Nu on 0800 195 8641, or see the [www.re-nukitchens.co.uk](http://www.re-nukitchens.co.uk).
