Byfleet Chiropractic makes life easier

ARE you fed up with aches and pains?

Have you been told to live with it or that it will go away on its own?

Well no more! Byfleet Chiropractic is now based in the heart of the village within Capital Dental.

A lot of the common problems caused by daily life can be treated by Byfleet Chiropractic.

Chiropractic treatment itself specialises in detecting and treating joint dysfunction.

This can interfere with the nervous system, thus improving function, relieving pain and enabling the body to heal itself and get back to being healthy.

These treatments include lower back pain, sciatica, neck pain, headaches, shoulder pain, trapped nerves and fatigue.

As well as treating these conditions, Byfleet Chiropractic also advises ways in which to achieve

true wellness and give tips on nutrition, exercise and ways on improving your overall quality of life.

The treatment you will receive is very thorough enabling you to get the best results.

During the first visit a full case history will be taken to assess each individual client's overall health picture.

This will concentrate on the musculoskeletal system but will include other checks such as blood and temperature pressure, if x-rays are required you will also be referred for them.

The second visit will be the start of the treatment and will explain what is causing the problem.

Soft tissue techniques are used to address muscles and ligaments directly and will give specific stretches or exercises.

The treatments are suitable for everyone,

Byfleet Chiropractic owner Petra Langen-Pieterf.

from the young to the old, as each treatment is tailored to the individual.

For more information or to book your consulta-

tion telephone 01932 341616 or pay a visit to the clinic at Capital Dental, 29 High Road, Byfleet.
