## Small and efficient water softeners

**HARD** water is something we are all used to in the south. Although most of us have got used to putting up with it, many do not realise that you can do something about it.

Hard water is also very annoying. It furs up our heating systems, causing breakdowns, makes it more expensive to heat our homes and damages our appliances like the washing machine.

The other problem with hard water is the constant cleaning of showerheads, shower screens and stainless steel sinks. The whole house can suffer where water is concerned. This forces the home owner to buy expensive limescale-related cleaning products.

Hard water aggravates skin problems such as eczema and psoriasis.

With a water softener no hard water will get into the house, which means you will do less cleaning, stop buying limescale-related products, cut washing powder use by up to 75% and have less chance of large bills for potential future problems with your heating system and appliance breakdowns.

If you were to purchase an ordinary softener you would have quite a large machine, which requires

you to set clocks and lug around a 25kg bag of salt.

The TwinTec S2 is different. It is small, requires no electricity and uses block salt (like two house bricks) instead of heavy bags.

Harvey Softeners has been manufacturing softeners in this area for more than 25 years and used to trade under the name Kinetico Ltd. Kevin Goody (UK Water Softeners) is one of Harvey's top TwinTec dealers and was voted number two in the country last year.

Why is Kevin so successful? He puts it down to extensive marketing, having a great plumber with 21 years of experience installing water softeners, good customer satisfaction and recommendations.

Kevin has installed 2,500 water softeners in homes in this area over the last 12 years and arranges everything from initial survey to installation.

If you have an old water softener trade it in for something smaller and more efficient by calling Kevin Goody on 01276 27924 without obligation, email kevingoody@uk-water-softeners.co.uk or visit [www.uk-water-softeners.co.uk](http://www.uk-water-softeners.co.uk). Kevin Goody also welcomes trade enquiries.

## Osteopathy could ease your pain

**PAIN** is a terrible thing. Desperate for help, finding it hard to sleep, feel like nobody understands? Well don't panic.

That's what Osteopathic Consultancy hears all the time.

Pain can be greatly variable, from a dull ache to a hot stabbing pain or irritating pins and needles. It all affects your quality of life.

Osteopathic Consultancy specialises in dealing with pain.

The osteopaths see people in pain every day and help them.

Many people who go to see them believe they are the exception and that Osteopathic Consultancy won't be able to help them.

Osteopath Alex Watson said: "Pain, for example back pain, can start as a twinge or an irritation, and then become more life-changing as time goes on."

"Our free clinical consultation is designed to allow people access to an osteopath with no

obligation to stay. You don't have to be treated if you don't want to be, and we are clinically obliged to send you in the right direction if we feel treatment isn't applicable.

"We put our money where our mouths are as we know we can help most people."

Osteopathic Consultancy is a well-established clinic.

It has male and female osteopaths available and offers evening appointments.

It guarantees to offer you an appointment the same day or the next day, as the osteopaths understand pain does not wait.

They are still running their free clinical consultation.

If you wish to stay for examination and treatment you are more than welcome but under no obligation.

What do you have to lose but your pain? Call now on 01276 708954.

## Sensible sunbed use

A **LIGHT** tan can make you look good and feel good. Increasingly scientists are telling us that there is a reason for this.

Sunlight allows our bodies to make Vitamin D so we can confidently enjoy some rays to boost our mood and boost our immune system too.

This spring many people will choose to tan in a controlled environment where they can learn about their individual skin type and how to tan responsibly.

The leading tanning salon chain in Europe, Consol Suncenter, has a studio at 89 Victoria Road, Aldershot.

The Consol Suncenter studio is simple to use, explains proprietor Jesper Primdahl.

"There's no need to make an appointment. The customers pay for their sunbed sessions using a self-

service system that also provides clear guidelines on sensible sunbed use.

"We're open seven days a week from 7am until 9pm so customers can pop in at any time."

Consol Suncenter runs a special January offer of 30p a minute.

The normal price is 50p a minute.

For more information call Consol's advice line on 0845 450 9100 or visit [www.consol.uk.com](http://www.consol.uk.com).

## Club is empowering women

**CURVES** was featured in the Daily Express on January 14 2008 and is the first fitness and weight loss facility dedicated to providing affordable, one-stop exercise and nutritional guidance for women.

The secret to its success is your success. Across the world Curves is helping four million women achieve their fitness goals with its 30-minute total body workout in a supportive, encouraging environment.

At Curves Yateley the members

range in age from 14 to 75, come in all shapes and sizes, and range from beginners to fit athletes.

Many of its members say their time at Curves is the fastest 30 minutes of their week.

The laughter, conversation and sense of support that you see at Curves Yateley is different from any other health club you may have visited in the past, so ring 01252 870087 or just call in. Curves Yateley, empowering women.
